4. Principal Report

a. Comprehensive Distance Learning Update - Jay outlined the current learning model with 4J restrictions on in-person classrooms. They are still working on the LIPI (Limited In Person Instruction) model for the CTE classes, so there will be CTE Service & CTE Field days Monday & Friday respectively. Online instruction is Tuesday, Wednesday & Thursday and they are waiting on field work until the COVID metrics are better. Meanwhile for CTE, the staff is built kits for CTE electives for the students to be able to get credits while at home.

b. Enrollment Update - 36 started, lost 2 so far as it was not a fit. TRCS is on a trimester system with smaller units within for credits. The breakdown of students per grade is: 8th grade - 2, 9th grade -4, 10th grade-5, 11th grade - 7, 12th grade - 13, Super seniors - 5 with one graduating soon.

5. Financial Report

Current Finance Report - reviewed this, noting there is no projected project revenue due to COVID protocols,

4J Update - there will be changes in the state programs for funding students due to the large overall state revenue decrease during the pandemic. At this time, the changes are unknown.

6. Other Business

a. Starting discussion on future recruitment and continuing to determine which students we can best serve going forward.
